

How to add a Profile

This is an example for people unfamiliar with adding there profiles online.

{xtypo_info}On the first tab you enter your artists name, your address and a short description about yourself {/xtypo_info}

{xtypo_info}On the second tab please tick all option that apply to give a potential customer the information he requires to hire you.{/xtypo_info}

{xtypo_info}The photos from your digital camera, should be saved onto a computer and each photo given a name so you can easily identify it.

If all your photos are in normal JPEG format and resized to 800 x 600 pixels before you upload them to the website, they'll upload very quickly, but don't worry if resizing digital images proofs difficult, since the website will accept most digital photo formats and larger sizes too, but they'll just take a little longer to upload.{/xtypo_info}
